

How prepared is your home in the event of a wildfire?

What is the wildland urban interface? It is where humans and their developments meet or intermix with wildland fuel.

Wasatch County Fire / EMS is pleased to sponsor a presentation on Community Risk Reduction. With the effects of recent devastating fires fresh in our minds, we ask, how can you, as a member of the community, work to reduce the risk of wild fire?

- Join experts from local, state and federal resources to help decrease the potential for catastrophic wildfires.
- Listen to our Propane Safety Training
- In this community meeting we will provide ways that you can reduce the risk of fire in and around your neighborhoods and homes.
- Come willing to participate in discussions with experts on how to build defensible space between your home and the wildland.

Wasatch County Fire / EMS will be there to answer questions. There will also be local fire Apparatus and Equipment on display.

Who: All are welcome! We especially encourage those living Wasatch County's high-risk areas to come!

When: May 9, 2019 6-8PM

Where: Heber City Senior Center located at 465 E 1200 S Heber Utah
(Located at the Wasatch County Library Building)

WE WANT TO HEAR FROM YOU!
