4. A public hearing shall be held by the Planning Commission.
5. All proposed amendments shall be first reviewed by the Town Planner and submitted to the Planning Commission for its recommendation as provided in this chapter.

 - a) The proposed amendment furthers the purpose of the General Plan, or
 - b) That changed conditions make the proposed amendment necessary to fulfill the purposes of this title.
7. Once a recommendation has been made by the Planning Commission, The Town Council will establish a date for a public hearing that provides sufficient public notice as required by the Hideout Standards for Public Notice as established in Section 11.06.06.

12.26 **CONDITIONAL USES**

12.26.02 **PURPOSE**

The purpose of this chapter is to allow the proper integration into the Town of uses which may be suitable only in certain locations in the Town, and only if such uses are designed or laid out on the site in a particular manner.

12.26.04 **CONDITIONAL USE PERMIT**

A conditional use permit shall be required for all uses listed as conditional uses in the zoning district regulations or elsewhere in this title. A conditional use permit may be revoked upon failure to comply with or failure to maintain conditions precedent to the original approval of the permit.

1. **Application:** Application for a conditional use permit shall be made by the property owner or certified agent thereof to the Planning Staff.
2. **Considerations Of Conditional Use Procedure:** The application shall be accompanied by maps, drawings, or other documents sufficient to meet the requirements of a site plan review for those conditional uses which require such a review, and sufficient to demonstrate that the general and specific requirements of this title will be met by the construction and operation of the proposed building, structure or use. In considering an application for a conditional use permit, the planning commission shall give due regard to the nature and condition of adjacent uses and structures. The commission may deny a permit; may grant a permit as applied for; or may grant a permit subject to such requirements and conditions with respect to location, construction maintenance, operation and duration of the proposed use as it may deem necessary for the protection of adjacent properties and the public interest. The granting of a conditional use permit shall not exempt the application from other relevant provisions of this or other ordinances of the Town.
3. **Fee:** The appropriate fee as authorized in the Town's fee schedule shall accompany the application for any conditional use permit.

12.26.06 **APPROVAL OF CONDITIONAL USE PERMIT**

A conditional use permit shall be approved if reasonable conditions are proposed, or can be imposed, to mitigate the reasonably anticipated detrimental effects of the proposed use in accordance with applicable standards. If the reasonably anticipated detrimental effects of a proposed conditional use cannot be substantially mitigated by the proposal or the imposition of reasonable conditions to achieve compliance with applicable standards, the conditional use may be denied.

12.26.08 **NOTIFICATION OF A CONDITIONAL USE PERMIT**

At least seven (7) days prior to the planning commission meeting during which the conditional use will be considered by the commission, a designated agent shall publish a notice in a newspaper of general circulation stating the proposed or requested use, and the date, time and location of the planning commission meeting in which the conditional use will be considered.

12.26.10 **APPEALS OF DECISION**

Any person shall have the right to appeal the decision of the planning commission to the Town Council. Such appeal shall be applied for within thirty (30) days from the date of the decision of the planning commission. Upon receipt of such appeal, the Town Council shall respond within forty five (45) days.

12.26.12 INSPECTION

Following the issuance of a conditional use permit by the planning commission, the planning director may approve an application for a building permit and shall ensure that development is undertaken and completed in compliance with said certificate and permit.

12.26.14 TIME LIMIT

Unless the uses and conditions prescribed in a conditional use permit are implemented within a maximum period of one year of its issuance, the conditional use permit shall expire. The planning commission may grant a maximum extension of six (6) months under exceptional circumstances. If the application is not approved, a reapplication shall not be submitted for the same purpose for a minimum period of twelve (12) months.

12.26.16 DETERMINATION AND CONSIDERATIONS

The Planning Commission may allow a conditional use to be located in any zoning district in which the particular use is allowed as a Conditional Use by this Title. In authorizing any Conditional Use, the planning commission shall impose such requirements and conditions necessary for the protection of adjacent properties and the public welfare. The Planning Commission shall not authorize a Conditional Use Permit unless the evidence presented is such as to establish that the proposed use:

1. At the specified location, is in harmony with the general intent and purpose of the General Plan and the applicable zoning district regulations; and
2. Is necessary or desirable to provide a service or facility which will contribute to the general well-being of the community and the neighborhood; and
3. Such use will not, under the circumstances of the particular case, be detrimental to the health, safety or general welfare of persons residing or working in the vicinity, or injurious to property or improvements in the vicinity; and
4. Conditions imposed by the Planning Commission shall be based upon options described in this Chapter or any special conditions or requirements as may be specified elsewhere in this Title.

12.26.18 STANDARDS FOR CONDITIONS

Applicants for Conditional Use Permits shall meet all specific requirements made in this title. In addition, the planning commission may establish conditions as outlined herein to meet the concerns of safety for persons and property, health and sanitation, environment, General Plan recommendations and neighborhood needs, performance and administration. More specifically, the Planning Commission may require:

 - a. The placement of Conditional Uses only in specific areas of a district, e.g., along an arterial or collector street.
 - b. Reduced building mass, bulk, and possible reorientation of structures on the site, including orientation to Buildings on adjoining Lots.
 - c. Physical design and compatibility with surrounding structures relative to mass, scale, style, design, and architectural detailing
 - d. The removal of structures incompatible with the desired characteristics of the district.
 - e. The screening of yards or other areas as protection from obnoxious land uses and activities.

- f. Landscaping in addition to that already required ensuring compatibility with the intended neighboring land uses.

 - i. The relocation of proposed or existing structures as necessary to provide for future streets on the master street plan, adequate sight distances for general safety, ground water control, or similar problems.
 - j. Provision for construction of recreational facilities necessary to satisfy needs of the conditional use.
 - k. Modification to allowed population density and intensity of land use where land capability and/or vicinity relationships make it appropriate to do so to protect health, safety and welfare.
 - l. Other improvements which serve the property in question and which may compensate, in part or in whole, possible adverse impacts to the district from the proposed conditional use.
 - m. Review for consistency with the goals and objectives of the General Plan; however such review for consistency shall not alone be binding.
2. **Safety:** Conditions relating to safety for persons and property:
- a. Building elevation and grading plans which will prevent or minimize flood water damage, where property may be subject to flooding.
 - b. The relocation, covering or fencing of irrigation ditches, drainage channels, and other potentially attractive nuisances existing on or adjacent to the property.
 - c. Increased setback distances from lot lines where the planning commission determines it to be necessary to ensure the public safety and to ensure compatibility with the intended characteristics of the district as outlined in this title, or where the lot abuts an arterial or collector street.
 - d. Appropriate design, construction and location of structures, buildings and facilities in relation to an earthquake fault which may exist on the property, and limitations and/or restrictions to use and/or location of use due to special site conditions, including, but not limited to, geologically hazardous areas, floodplains, fault zones, and landslide areas other than may be required by the sensitive lands regulations.
 - e. Limitations and control of the number, location, color, size, height, lighting and landscaping of signs and structures in relation to the creation of traffic hazards and appearance and harmony with adjacent development.
 - f. Plans for the location, arrangement and dimensions of truck loading and unloading facilities.
 - g. Construction of curbs, gutters, drainage culverts, sidewalks, streets, fire hydrants and street lighting.
 - h. Traffic Study showing that the Conditional Use has no impact on existing traffic patterns; or a Traffic Study showing how mitigation efforts reduce or eliminate impact on existing traffic patterns.
3. **Health and Sanitation:** Conditions relating to health and sanitation:
- a. A guarantee of sufficient water to serve the intended land use and a water delivery system meeting standards adopted by the town.

- b. A wastewater disposal system and a solid waste disposal system meeting standards adopted by the Town Council.
 - c. Stormwater management mitigation measures that ensure the containment of runoff on site.
 - d. Construction of water mains, sewer mains and drainage facilities serving the proposed use, in sizes necessary to protect existing utility users in the district and to provide for an orderly development of land in the Town.
4. **Environment:** Conditions relating to environmental concerns:
- a. Limitations and/or restrictions on the use and/or location of uses in sensitive areas due to soils capabilities, wildlife and plant life.
 - b. Processes for the control, elimination or prevention of land, water or air pollution; the prevention of soil erosion; and the control of objectionable odors and noise.
 - c. The planting of ground cover or other surfacing to prevent dust and erosion.
 - d. Restructuring of the land and planting of the same as directed by the Planning Commission when the conditional use involves cutting and/or filling the land, and where such land would be adversely affected if not restructured.

12.26.20 CONDITIONS RELATING TO SPECIFIC TYPES OF USES (RESERVED)

12.28 NONCONFORMING USE OF BUILDINGS, STRUCTURES AND LAND

12.28.02 MAINTENANCE PERMITTED

Except as otherwise provided in this title, a nonconforming use of land or a structure may be continued.

12.28.04 DETERMINATION OF NONCONFORMING BUILDINGS AND LAND USES

The board of adjustment shall determine all matters regarding the nonconforming use of buildings and land. Upon application, after public hearing on the matter, the board shall determine if the use of building is nonconforming with respect to the current provisions of this chapter. The planning staff may determine routine and uncontested requests to verify nonconforming uses and non-complying buildings and structures, as provided in the rules adopted by the board.

12.28.06 ALTERATION OR MODIFICATION TO NONCONFORMING BUILDINGS AND STRUCTURES

Noncomplying buildings and structures with respect to setbacks or height may be continued. Additions, enlargements or structural alterations may be made to the extent that they comply with all requirements of this code. In addition, the board, may allow an enlargement or structural alteration, provided the changes are in harmony with the surrounding and in keeping with the intent of the general plan and this title. The proposed change shall not impose any unreasonable impact or burden upon land located in the vicinity. Reasonable conditions may be attached to the approval in order to assure neighborhood compatibility. If any such noncomplying building is removed, every future use of the land on which the building was located shall conform to the provisions of this title.

12.28.08 NONCONFORMING USE OF LAND

A nonconforming use of land lawfully existing on the effective date hereof may be continued, provided such nonconforming use shall not be expanded or extended into any other open land, except as otherwise provided in this chapter. If the nonconforming use is discontinued for a continuous period of

more than one year, it shall constitute an abandonment of the use and any future use of such land shall conform to the provisions of the zone in which it is located.

12.28.10 NONCONFORMING USE OF BUILDINGS AND NONCOMPLYING STRUCTURES

The nonconforming use of a building lawfully existing on the effective date hereof may be continued and may be expanded or extended throughout such building or structure, provided no structural alterations, except those permitted by law, are proposed or made for the purpose of extension. The addition of a solar energy device to a building shall not be considered a structural alteration. If such nonconforming use is discontinued for continuous period of more than one year, it shall constitute an abandonment of the use and any future use of the building or structure shall conform to the provisions of the zone in which it is located.

12.28.12 CHANGE IN STATUS OF NONCONFORMING USE

If a nonconforming use is abandoned, it may be succeeded, upon approval of the town planner, by an equally restrictive or more restrictive nonconforming use, provided such change is effected within one year from the first day of abandonment. After a change to a less intensive use occurs, the use may not change back to a more intensive use.

12.28.14 ALTERATIONS OR MODIFICATIONS TO NONCONFORMING USES

A use, which has been declared nonconforming, shall not be enlarged or moved except as provided in this section. The board, may allow an enlargement or modification, provided the change is in harmony with the surrounding neighborhood and in keeping with the intent of the general plan and this title. The proposed change shall not impose any unreasonable impact or burden upon land located in the vicinity. Reasonable conditions may be attached to the approval in order to assure neighborhood compatibility.

12.28.16 RECONSTRUCTION OF PARTIALLY DESTROYED NONCOMPLYING BUILDINGS OR STRUCTURES

A nonconforming building or noncomplying structure destroyed in whole or in part, due to fire or other calamity, may be restored unless the structure or use has been abandoned. A nonconforming building or noncomplying structure may not be restored if:

The structure is allowed to deteriorate to a condition that the structure is rendered uninhabitable and is not repaired or restored within six (6) months after written notice to the property owner that the structure is uninhabitable and that the noncomplying structure or nonconforming use will be lost if the structure is not repaired or restored within six (6) months; or

The property owner has voluntarily demolished a majority of the noncomplying structure or the building that houses the nonconforming use.

12.28.18 AMORTIZATION OF NONCONFORMING USES

The board, under authorization of state statute, may provide for the timely modification or removal of a nonconforming use in order to comply with the general plan and zoning ordinance. The board may provide for a shorter time period by providing a formula establishing a reasonable time period during which the owner can recover or amortize the amount of any investment in the nonconforming use or structure, if any.
