

HIDEOUT WILDFIRE NEWS AND MITIGATION “TOWN HALL”

Wednesday, April 22nd—5:00 to 7:00 PM

At Hideout Town Hall

The Wildland Urban Interface (WUI) Code has been in effect for several years. However, with the region’s rapid growth, the Town of Hideout and the Wasatch Fire Department are emphasizing the need for HOA communities and individual homeowners to take a more proactive role in understanding and enforcing these regulations.

We invite you to attend an upcoming Town Hall meeting to learn more about:

- The WUI Code and what it means for your property
- Creating effective defensible space
- Home hardening strategies to reduce wildfire risk throughout the community

This meeting is an opportunity for HOAs and homeowners to work together toward a unified approach to wildfire preparedness and safety throughout the Town of Hideout. Your participation is strongly encouraged as we work collectively to enhance the safety and resilience of our community.
